Course Code

OUNI005

Doctoral programme course

Learning Outcomes

The aim of the course is that doctoral students develop a greater awareness of the significance of academic research and knowledge of how it can be made more beneficial to society, industry and academia.

The course is designed for doctoral students in all disciplines and clarifies various forms of utilising research.

In accordance with the overriding objective of courses offered to all doctoral students at Karlstad University, the aim is also that students broaden their knowledge of the perspective and praxis of other disciplines through exchanging experience of their respective research fields.

Upon completion of the course, students should be able to

- demonstrate deepened knowledge of the different forms and conditions of utilising and making research available in Swedish research community,
- demonstrate understanding of and analytical ability to

Further information

The course is developed and offered in conjunction with the universities and the Innovation Office Fyrklöver (Karlstad University, Linneaus University, Mid-Sweden University and Örebro University).

Some costs may arise in connection with the off-campus overnight-stay.

First course approval: 2011-03-28
