English

Collecting, managing and analyzing linguistic data

7.5 ECTS credits

English

Doctoral

Admission to a doctoral program.

Upon completion of the course, doctoral students should be able to

- give an account of different types of linguistic data and explain their role in linguistic research,
- demonstrate knowledge of tools and methods that are available for data collection, storage, presentation, and analysis,
- demonstrate an understanding of ethical implications and legal aspects of data collection and storage,
- compare and critically evaluate methods of data collection and analysis, and
- critically assess the suitability of linguistic data sets to research fields and approaches.
